

Nedging with Naughton Village Hall Report

September 2022

Meetings

We held a meeting to discuss the Autumn Supper and dance and we are holding a trustee meeting later this week.

Environment

Trees and hedging have been requested from Babergh DC, and we are waiting for new forms to arrive so we can request trees from the tree warden. If successful they will arrive end October approximately. Despite the lack of rain, the turf that was laid before the drought has mostly survived. There is one more area to do.

The play equipment is being dispatched from the Czech Republic and arriving next week.

The seats are being replaced on the current swings at the same time as the installation which will take place on 13th and 14th October.

We have also signed up with solar together Suffolk to see if it is feasible to have solar panels put on the roof. This is a Suffolk County Council initiative.

The bench at the front is being repaired and so is an old picnic table.

We are also looking into why water has got into the Defib cabinet and how it can be made water proof.

Classes

Keep fit now has a new instructor, a lady named Sam. Pilates, Tai Chi, dog training and coffee mornings are still running.

Events

The children's picnic went well. There were about 17 children in all.

As mentioned above our next event is the Autumn supper and dance on 8th October. We are also organising our Posh frock dinner for November 19th and our Christmas Quiz is planned for December 10th.

Bookings

The hall has been hired out few times in the last couple of months.
