

Village Hall And Community Council report July 2020

The committee have not held any formal meetings. Decisions have been made by either phone or email.

Events

All events are still on hold. We have no plans to open the hall before September. And the hall is not being hired out. One reason for this is the stringent cleaning and disinfecting of the hall after it is used.

Maintenance

Nothing has taken place in the last few months. The hall was checked a week ago and does need a thoroughly good clean before it can be used.

Playground inspection

The equipment was inspected and we had to stop the equipment being used. That has now changed and the play equipment plus gates etc. are now being disinfected every 10 days.

Finance

The hall currently has no income but we successfully applied for a retail and hospitality grant of £10000 from Babergh District Council to help meet our outgoing bills.
