

Village Hall and Community Council Report July 13th 2021

All the Planning Application Approval Conditions have now been satisfied, except for window frames and doors. This is expected to be approved within the next two weeks. Ordered bricks should then be available and work, which has been delayed by three months, will recommence by August for completion by the end of October.

We have had a few people come up to look at the area at the back of the hall to give us quotes for landscaping and putting in a patio but have not had many quotes back. We have another person coming tomorrow.

Pilates has been up and running since May with reduced numbers.

Keep fit recommenced at the beginning of July but on a Thursday afternoon instead of Monday.

The dog training classes have stopped due to lack of interest. But they may resume in October if enough interest is generated. We have suggested that Gem (the trainer) make use of Roundabout and Nextdoor.

The coffee mornings will resume on a Tuesday in August.

We cancelled our planned event for July due to the COVID restrictions not being removed and we have not set a new date for it.

It looks like we will be able to have Nedging Barn for the Harvest Supper as we have spoken to James Buckle and he is happy for us to use it. We just need to give him the date.

Sheila Goodman

Chair and Deputy Chair
